ADVANCED SEMI-TRAILERS AND MOBILE WORKSHOPS

Alura Trailer, based in İzmir, Turkey, specializes in the engineering and production of high-performance semi-trailers and mobile workshop vehicles. Our transport solutions are trusted across Europe, Africa, and the Middle East by professionals in logistics, construction, energy, and defense industries.

Our product portfolio includes flatbeds, lowbeds, tippers, and tankers — all customizable by axle layout, dimensions, suspension type, and material options to meet client-specific requirements.

We also design and deliver mobile workshop trucks fully equipped with onboard power generators, air compressors, workbenches, and secure storage — ideal for field operations and remote deployments.

Tailor-Made Solutions

- ✓ Customized trailers for each client
- ✓ Engineering based on real needs
- ✓ Built with certified European components

WHY CHOOSE ALURA TRAILER?

With decades of experience in semi-trailer and mobile workshop manufacturing, Alura Trailer

delivers engineering excellence from Turkey to the world. Our customers trust us for our commitment to quality, certified components, and tailored solutions for diverse operational needs.

Whether you're in logistics, mining, construction, or defense, we offer project-based production, full export support, and a responsive after-sales service team. We understand regional regulations and customize each trailer or mobile unit to meet both technical and regulatory standards.

- ✓ ISO-compliant manufacturing & certified materials
- ✓ Short production lead times & worldwide delivery
- ✓ Export-ready documentation & multilingual manuals

From flatbed and lowbed trailers to fully equipped mobile workshops, our solutions are built to perform in challenging environments. Each project is handled with precision, care, and the flexibility to adapt to client demands — no matter the region.

PREMIUM TRAILERS GLOBAL DEMAND

At Alura Trailer, we design advanced transport and mobile units tailored to global standards. Proudly built in Turkey, our trailers are exported to over 30 countries.

Our diverse portfolio includes:

- [Flatbed Trailers](#) – for containers and palletized freight
- [Lowbed Trailers](#) – for heavy equipment and machinery
- [Tipper Trailers](#) – for mining, sand and aggregates
- [Tanker Trailers](#) – liquid transport with ADR-compliance
- [Mobile Workshop Trucks](#) – standalone maintenance units
- [Mobile Workshop Trailers](#) – field-ready repair solutions

All units are built using certified components with ISO-compliant processes. We provide export-ready documentation, short lead times, and responsive support for every project.
